

Victorian Telegram PDF Usage Notes

The PDF is A4, but I suggest cutting the page in half to make a landscape A5 page.

Two variants are included, for telegrams from the Colonial Office and from the General Post Office (for general public use).

Ideally, print the PDF on off-white paper or thin card. Then write in the date, sender, and recipient by hand.

Print the message itself in strips on white paper, using a typewriter font such as Courier New. Cut the strips out and glue them onto the telegram.

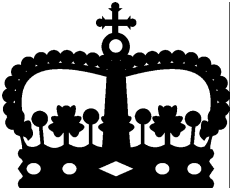

COLONIAL OFFICE TELEGRAM

Date:
